-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-21 are drawn advertisements in accordance with a type of media file, classified in class, 705 subclass 14.
 - II. Claims 22-23 and 29 are drawn to generating a database for associating each unique ID with a particular user who is permitted to process said media file, classified in class 705, subclass 50.
 - III. Claims 24-28 are drawn to a payment for selecting one or more media file, classified in class 705, subclass 40.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as permitting a user to process a file. Invention I has a separate utility such as advertisement in accordance with a file type. See MPEP § 806.05(d).
3. The inventions are distinct, each from the other because of the following reasons: Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as a payment for the media file and Group I has a separate utility such as advertisements

based on the file type. See MPEP § 806.05(d).

4. The inventions are distinct, each from the other because of the following reasons:

Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as permitting a user to process a file and group III has a separate utility such as a payment for the file. See MPEP § 806.05(d).

5. These inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Since the examiner knows from past experience that an election will not be made by telephone, this restriction is proper under MPEP 812.01.

Point of contact

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raquel Alvarez whose telephone number is (571)272-6715. The examiner can normally be reached on 9:00-5:00.
